Asunto:

Dear Mr. Vilar,

I am very interested in working in the field of web programming and facing new challenges that make me grow in knowledge and in person.

I consider that there have been few days when I have been able to perform practices and make my abilities known.

I also have knowledge in electricity that can be useful to expand the company to new markets.

I hope I can have a second chance, and be able to demonstrate all my abilities.

You can find my contact information in the headings of the CV and this letter.

Thank you very much for allowing me to do internships at your company.

Carefully greetings,

Adrian Rubio Trujillo
